OBJECTIVE

- To obtain a junior position in network engineering and management with future opportunities for advancement.

NETWORKING AND SYSTEMS SKILLS

- Assisted designing, provided Visio documentation, and implemented a 5,000 host military network combining OSPF, DMVPNs, Line of Sight radio, and Cisco Unified Call Manager VoIP telephony.
- Designed layout and deployed over 50 Unifi Wireless Access Points, providing multiple SSID networks over multiple VLANs to support over 300 concurrent internal and guest users.
- Deployed Nagios and Observium SNMP based network monitoring solutions to keep records of bandwidth utilization, uptime, and health of network devices across the nation.
- Installed, maintained, and monitored Cisco ASA 5510s supporting Remote Access and Site-to-Site VPNs.

LEADERSHIP SKILLS

- Achieved the rank of E-5 sergeant during four year military service.
- Led a team of soldiers through military field training exercises, garrison command inspections, and physical training regiments.
- Graduated from the 7th Army Europe's Non-Commissioned Officer Academy – November 2009.

EDUCATION/ TRAINING

- B.S. in Informatics Systems Administration from the University of Louisiana (Fall 2014).
- Graduated from the US Army Signal Corp Advanced Individual Training program as a Distinguished Honor Graduate – May 2007.
- Graduated US Army Basic Combat Training - November 2006.

CERTIFICATION

- Cisco Certified Network Associate (CCNA Valid until April 3rd 2015)
- Secret Security Clearance

EMPLOYMENT

- Cite Technology Network Administrator 2012 – Present
- US Army 2006-2010 Joint Network Node O&M 25N20
- Lafayette Utilities System Engineering Aide 2004-2006

INTERESTS

- Fishing, electronics, guitar, cooking, homebrew, GNS3.
